**RESCISSION OF WASTE DISCHARGE REQUIREMENTS FOR ELECTRONIC CHROME COMPANY, INC., 9132 DICE ROAD, SANTA FE SPRINGS, CALIFORNIA (FILE NO. 77-12, ORDER NO. 8106)**

Dear Mr. Reed:

In May 1977, this Regional Board adopted Industrial Waste Disposal Permits issued by the County of Los Angeles Department of County Engineer Project Planning and Pollution Control Division for a variety of industrial waste discharges that could affect water quality. The subject facility is covered by such a permit. Spilled rinse water generated from each chrome tank was discharged into concrete sumps.

Regional Board staff conducted a field inspection on June 5, 2000, at the subject site and verified that the facility currently has no discharge.

In accordance with administrative procedures, this Regional Board, at a public meeting to be held on January 25, 2001, at 9:00 a.m., at the Metropolitan Water District of Southern California, 700 North Alameda Street, Los Angeles, California, will consider the enclosed tentative Order, which, in part, rescinds Order No. 8106.

If you have any questions, please call David Koo at (213) 620-6003.

Sincerely,

Paula Rasmussen  
Environmental Program Manager
